Of all my little dresses, I like my little black black one the bestest, He thinks it's to impress him But really, I just love watching myself

I really turn me on, I really make me hot I move to the song, you want what I got And I move so well, I wanna kiss myself IIII wanna kiss myself IIII wanna kiss myself

I don't mean to flaunt Are you jealous I can touch me whenever I want? Ya ya I'm a perfect ten You say I have a big head, I'll say it again

I really turn me on, I really make me hot I move to the song, you want what I got And I move so well, I wanna kiss myself IIII wanna kiss myself IIII wanna kiss myself

Baby if you loved you, like I love me, Maybe you'd be, sorta happy. Let the b\*tches b\*tch, let the judges judge. Cause you'll never know, the taste of this love.

I really turn me on, I really make me hot I move to the song, you want what I got And I move so well, I wanna kiss myself IIII wanna kiss myself IIII wanna kiss myself IIII wanna kiss myself I wanna kiss myself I wanna kiss myself
