The year was 1999, where 2 young men at rocking term
found'??

Who you all know now as the world'??s famous'??

I remember when they said you won'??t make it
Now I'??m getting mine you can'??t take it away
So that you see that all my hard work is paying off
If I see them now what would they have to say?
What would say now?

I started out rapping right around 9 years old
55 '?? street, dice they rolldI kick a freestyle
While they like they bones, og'??s used to tell me that
they like my tone
I used to zone out, back when life was cold
Around the time that my mom played my father'??s
role
And cars I drove, moved every year, new schools
Wishing for new shoes, never mind '??
Started to rap truth, me and my cousins,
Shopping my little demos, rocking them instrumental
Hooked up with style, they started out 3d
A couple years later, we started '??
Man, how they handle'??when they heard that in term
Just teenagers out rhyming veterans
Got a little rapping to be, how we torn down shows
And we was only like 18, finally I did a track with '??
All the sudden magazines like how I speak, showing
off, we coming up
82 now we blowing up, it'??s static on it'??s way too
'?? and all the hate I received from the local cats
You can give me that but you can'??t take it back
It'??s show off, '?? homie, we run it
I know it'??s hard to stomach on the rear

I remember when they said you won'??t make it
Now I'??m getting mine you can'??t take it away
So that you see that all my hard work is paying off
If I see them now what would they have to say?
What would say now?

It's st, nah, say it loud my brother?
Man I'm so proud of my brother,
Remember way back when you said your flow was
whack
Now you did been around the globe and back
Same cats trying to hold you back
Will see you on the streets now like yo your flow is
crack
Started out them 2 kids from streets
Now you doing the thing, I gotta admit it's bitter
sweet
But we more than a group, we a family,
So Eddie don't stay' for Danny
And fuck rap homie, we go back
Almost died when I heard you got a primo track
And I learned the hard way the street shit will get you
nowhere
Gotta put in that work if you gonna go there
And now you opening them doors for me little brother
Let's put it on so they all can see, come on

I remember when they said you won't make it
Now I'm getting mine you can't take it away
So that you see that all my hard work is paying off
If I see them now what would they have to say?
What would say now?
I remember when they said you won't make it
Now I'm getting mine you can't take it away
So that you see that all my hard work is paying off
If I see them now what would they have to say?
What would say now?
