15 miles outside of Rockland County Line  
Where it all went down long ago  
Baby don't be dumb, this is how you run  
If you wanna leave with your heartbeat

And I don't remember what we started  
Fighting over and over

But I know that no painkillers make it go away  
I tried them once before, it didn't work for me, work  
And there's no painkillers make it go away  
If I tried to overdose, it wouldn't bring no change

Sirens out on 95  
And I'm not dead tonight

Took exit 81, I felt like throwing up  
I finally did the math of where I'm going  
And my heart breaks for you, but I got broken too  
And I still wanna be someone

And I know you wanna fight  
But one day you'll be thankful that I let you go

But I know that no painkillers make it go away  
I tried them once before, it didn't work for me, work  
And there's no painkillers make it go away  
If I tried to overdose, it wouldn't bring no change

And even when it's cold, and even when I'm whacked  
I won't want you back  
The further I can go, the further I can see and I fight for  
that  
But did you always know? Did it come out of nowhere?

No painkillers make it go away  
I tried them once before, it didn't work for me, work  
And there's no painkillers make it go away  
If I tried to overdose, it wouldn't bring no change

No painkillers make it go away  
I tried them once before, it didn't work for me, no, no,

no  
No painkillers make it go away  
If I tried to overdose it wouldn't bring no change

Sirens out on 95  
And I'm not dead tonight
