Oh, I'm no temptress  
But I'm no angel either  
And it feels good to be a stranger

No one can judge me  
Unlike the moon outside and  
Guess I should welcome this new change

Come and take a see  
Let's talk it over  
I don't wanna keep you in the dark

(Chorus)  
Go on ahead and bring me the roses  
It's almost time for me to be going  
I'm so afraid that I might be led astray  
Nothing can save me when the night kills the day

You think I'm crazy  
You think I made a big mistake  
Who am I, in question, fake?

I don't wanna have to catch you whisper  
I don't wanna make a sacrifice

(Chorus)  
Go on ahead and bring me the roses  
It's almost time for me to be going  
I'm so afraid that I might be led astray  
How will I know to pull on the ropes and  
It doesn't seem like anything's slowing  
Nothing can save me when the night kills the day

Here comes the night it's taking me over  
Here comes the night it's taking me over

(Chorus)  
Go on ahead and bring me the roses  
It's almost time for me to be going  
I'm so afraid that I might be led astray  
How will I know to pull on the ropes and  
It doesn't seem like anything's slowing

Nothing can save me when the night kills the day
