"Bring Me Close"

I could float
Without wings
Touch the sky
Feel the sunlight kiss my face
Fly though space
If I knew
It would bring me close to you

People stop and stare so
Let them watch me
While I dare to suddenly

Dance
Through the street
Tap my feet
I could sing your name out loud
Through the crowd
If I knew
It would bring me close to you

People stop and stare so
Let them watch me
While I dare to suddenly

Reach
For your hand
Hush your lips
Steal a kiss or two or three
Shamelessly
If I knew
It would bring me close to you
