This is my song  
To carry on  
When you have found yourself alone  
And I am gone

So I will wait  
Anticipate  
Every last minute that we have  
To celebrate

This is my song to remember me by  
When the moon grows long in the sky  
And you wonder why goodbyes are bound to be  
Life goes on, love, you will see

Think of this tune  
When Forget-me-nots bloom  
Pick one for me and make a wish  
That I will be back soon

This is my song to remember me by  
When the moon grows long in the sky  
And you wonder why goodbyes are bound to be  
Life goes on, love, you will see

Oh, oh, la, la, la,

This is my song to remember me by  
When the moon grows long in the sky  
And you wonder why goodbyes are bound to be  
Life goes on, love, you will see
