Iâ€™m left lost in your eyes
Too deep to be found,
But we both know why I canâ€™t stay around

No time for tears,
Canâ€™t stand goodbyes,
Cause if I look your way,
Iâ€™ll just break down and cry,

I donâ€™t want to go,
But we both know why I have to-
How could I give up a chance to save you?

Because I love you too much,
Even though I know youâ€™ll hurt me,
And Iâ€™ll hurt you too-
Itâ€™s still almost unbearable to even think of leaving
you behind,

Just hold me through the night,
And maybe things will be alright,
Cause that one sweet memory,
Iâ€™ll keep until the end of time-

Deep down youâ€™ll see,
Iâ€™ll never stop needing you,
And youâ€™ll always need me too,
Iâ€™m almost sorry to say-

Itâ€™s too late to hold on,
Cause morningâ€™s already come-

Maybe someday Iâ€™ll be back,
When all the fightingâ€™s done-

No time for tears,
Canâ€™t stand goodbyes,
Cause if I look your way,
Iâ€™ll just breakdown and cry,

Itâ€™s tearing me up to leave you behind,
But the choice has been made,

The price has been payed,
And even you can't change my mind-
Nooooooo-, not even you can change my mind-

I'm so sorry to hurt you,
But otherwise,
It'll never end,
Cause this is no game,
And we just can't pretend,
It'll go away-

But there's one thing I'm sure of baby:

No matter how much I'm told I should hate you,
I'll still hope and pray for one last day,
Where you'd hold me,
All through the night,
Cause no matter what anyone says,
You'll be the one thing that makes my world seem right-
