"Flag Woman"

Visit "[Flag Woman](#)" on MotoLyrics.com

You are the professional
Teach me everything you know about carnival
Want to be a flag woman in your band
Want to be the best, I want to be number one
Left, right, left right, up and down
Hold tight hold tight, hold on strong
Wave it wave it, move it move it
Flag woman you ready to jam

CHORUS

Teach me teach me teach me, me teacher
How to hold it, how to wave it
How to swing it, how to jam
How to use it, how to work it
How to move it, flag woman x 2

I am just a beginner
Never try to judge a book by the front cover
I need all the experience I can get
I don't even know how to hold the staff as yet
Inside, outside, round and round
Front side, back side, having fun
Wave it wave it, move it move it
Flag woman you rule this jam

Teach me, teach me everything
Teach me all that make this flag thing so exciting
Lesson one is free for all it's on the house
Teach me all the ropes, need to learn the ins and outs
Fly it fly it wave it high, shake it shake it in the sky
Wave it wave it, move it move it
Flag woman you're number one
