Blasphemous man made abomination born
Creating something that's never been made before
Creating something that's never been made before
Creating something that's never been made before
Creating something that's never been made before
Savior where are you now
Savior where the fuck
Where the fuck are you now
Wreaking terror through the sky
Hate envelops every soul
Your fate no longer in your hands mind control to the
fullest extent
Demise of humanity
Severed heads overflow as the spree continues
Man destroys man the ultimate killing machine
Severed heads overflow as the spree continues
Man destroys man the ultimate killing machine
Resistance-a ticket to sure death

SÅ,oÅ,,ce zachodzi
SÅ,oÅ,,ce zachodzi
SÅ,oÅ,,ce zachodzi
Death now rules this hated land
Death now rules this hated land
Death now rules this hated land
Death now rules this fucking hated land
Man made abomination born
Spawned the destruction machine rises
Spawned the destruction machine rises
Spawned the destruction machine rises
Spawned the destruction machine rises
And torn from the inside out
And torn from the inside out
And torn from the inside fucking out
Endless worthless piece of fucking shit
Endless worthless piece of fucking shit
Endless worthless piece of fucking shit
