Impaling anomaly strikes pierce the vile and depraved  
Slumped down succumbing to the mechanical beast  
not of this world  
Machine arms grasp intestines as the human life  
comes to an end  
Killed it cannot be sent to wipe this sphere clean  
Implanted seeds  
Beckon a new beginning a new race has come to rule  
Forces beyond your comprehension you may fight but  
you will die  
Fuck  
Slowly weakening the insides paralysis leaves them on  
their knees  
On their knees begging for their lives  
On their knees begging for their fucking lives  
Humans sliced apart carnage fills the streets  
Humans sliced apart carnage fills the streets  
Dismantling what is left of humankind  
Beheaded corpses thrown across the sky

Discarded chaos and darkness engulfing earth  
Bodies and loose limbs flowing through the blood red  
rivers  
Bodies and loose limbs flowing through the blood red  
rivers  
Bodies and loose limbs flowing through the blood red  
rivers  
Bodies and loose limbs flowing through the blood red  
rivers  
Machine arms grasp intestines as the human life  
comes to an end  
Killed it cannot be sent to wipe this sphere clean  
Implanted seeds  
Beckon a new beginning a new race has come to rule  
Forces beyond your comprehension you may fight but  
you will die  
Pierce the vile and depraved slumped down  
Succumbing to the mechanical beast not of this
