Fetus removed and slaughtered as she sleeps replaced by embryonic anomaly bred to kill when time the comes

Fetus removed and slaughtered as she sleeps replaced by embryonic anomaly bred to kill when the time comes

Disguised life among the civilization, isolation spawns hate

Lashing out to begin widespread slaughter planted alien now excruciating unstoppable force

Disguised life among the civilization isolation spawns hate

Lashing out to begin widespread slaughter planted alien now excruciating unstoppable force

Helpless humans cannot defeat it the leader of it's dominant anti empire race claiming lives with devastating vigor putrid stench of death rises through the air havoc a massacre

Extermination in it's purest form

Extermination in it's purest form

Genocide of the soon to be forgotten

Genocide of the soon to be forgotten

Swine of earth feeding on their carcasses to fuel our killing rampage

Fetus removed and slaughtered as she sleeps replaced by embryonic anomaly bred to kill when time comes

Fetus removed and slaughtered as she sleeps replaced by embryonic anomaly bred to kill when time comes
