Rebirth

Turmoil among the slaves

Cosmic realms far beyond the sun implode

We are not of this world

Abandoned our home now we've come to take yours

Unleash this wrath on your pitiful people

Abandoned our home now we've come to take yours

Unleash this wrath on your pitiful people

Kneel before my minions

As they kneel before me

Kneel before my minions

As they kneel before me

Kneel before my minions

As they kneel before me

I take the form of a god

The mindless follow me

The gluttony I find in this filthy waste of life disgusts

me

Seized and devoured by your loving sun

Migration of the slave human pigs

No charred remains

I take the form of a god

The mindless follow me

Cosmic realms far beyond the sun implode

We are not of this world

Abandoned our home now we've come to take yours

Unleash this wrath on your pitiful people

Abandoned our home now we've come to take yours

Unleash this wrath on your pitiful people

Shipped off like cattle butchered now you'll see

Shipped off like cattle butchered now you'll see
