Graceless

Is there a powder to erase this?

Is it dissolvable and tasteless?

You can't imagine how I hate this

Graceless

I'm trying, but I'm graceless

Don't have the sunny side to face this

I am invisible and weightless

You can't imagine how I hate this

Graceless

I'm trying, but I've gone

Through the glass again

Just come and find me

God loves everybody, don't remind me

I took the medicine when I went missing

Just let me hear your voice, just let me listen

Graceless

I figured out how to be faithless

But it will be a sheme to waste this

You can't imagine how I hate this

Graceless

I'm trying, but I've gone

Through the glass again

Just come and find me

God loves everybody, don't remind me

I took the medicine and I went missing

Just let me hear your voice, just let me listen

All of my thoughts of you

Bullets through rock and through

Come apart at the seams

Now I know what dying means

I am not my rosy self
Left my roses on my shelf
Take the wild ones, they're my favorites
It's the side effects that save us

Grace

Put the flowers you find in a vase
If you're dead in the mind it will brighten the place
Don't let them die on the vine, it's a waste

Grace

There's a science to walking through windows
There's a science to walking through windows
There's a science to walking through windows
There's a science to walking through windows without you

All of my thoughts of you
Bullets through rock and through
Come apart at the seams
Now I know what dying means

I am not my rosy self
Left my roses on my shelf
Take the wild ones, they're my favorites
It's the side effects that save us

Grace

Put the flowers you find in a vase
If you're dead in the mind it will brighten the base
Don't let them die on the vine, it's a waste

Grace
