Where did I go wrong? I never thought I'd feel so low  
Find it hard to just go on, when everything just feels so  
wrong

But I feel it coming like the thunder  
The storm that ends the heat of summer  
These thoughts of you are pulling me under  
The water, I'm drowning in you

I know that I have something missing  
From my life and it's you  
I realise that you're the one I'm missing  
And I don't want no one but you

I can feel it in my heart, you are the one that I have  
needed from the start  
I can't bear to be apart, I wanna be with you like the  
moon is with the stars

I don't know what I am thinking  
But because of you my heart is sinking  
I know that it's just wishful thinking  
But I want to be with you

I know that I have something missing  
From my life and it's you  
I realise that you're the one I'm missing  
And I don't want no one but you

I feel it getting colder  
I wish that I could hold her  
Tonight my heart is frozen  
Coz I know you're the one

I know that I have something missing  
From my life and it's you  
I realise that you're the one I'm missing  
And I don't want no one but you
