I think that there is something I should tell you
Something that will make you be so free
It's gonna feel so real inside mind
And tell me if you're who you wanna be

Let me hold your hand and come with me
Your heart will do the rest and you will see
There's nothing in the world you can't achieve
If we fly higher

We are dreaming in true colors
We're not different from the others
We shall love and love and love and reach the sky so high
You should know that we are brothers
We're not different from each other
We shall love and love and love and love together

To know and to believe that we can do it
In each and every thought I know I can
And so together we'll turn into millions
And all our dreams will finally come true

Let me hold your hand and come with me
Your heart will do the rest and you will see
There's nothing in the world you can't achieve
If we fly higher

[Chorus]

We are gonna sing out loud and join our voices
We are gonna fly so high where everything's better
Side by side we stand forever
And if you believe, we'll change the world together

[Chorus x2]

We are one

All together
