I've left you, twenty missed calls  
Six messages, your voice mail's full  
I call you back, call you back, but later  
Something in my brain pulls at my heart  
Now ding your number the ringing starts  
You say hello baby i'll call you back later

A text feels like i've kissed you  
A phone calls like you're here  
When neither one, i'm like being in love  
nowhere near  
A voicemail is like i've seen you  
A message is like a touch  
When i come on my webpage Baby  
It's not enough

because i feel like i'm in love with technology  
looking at the computer screen  
Baby what do you mean to me  
Was it ever real

because i feel like i'm in love with technology  
looking at the computer screen  
baby what do you mean to me?  
Was it ever real

Sign into my home page  
Picked a comment u left yesterday  
did you get my calls baby?  
i guess so  
So, click, uh uh  
and i see your face  
click click, uh  
and i look away  
Can i really love you?  
i don't know

An email's like i've seen you  
I press send you disappear

Well that's not enough when your in love  
Nowhere near

Your face is a thousand pixels  
To sleep i shut you down  
'Cause all this superficial love  
is not enough

Because i feel like i'm in love with a technology  
I'm looking at the computer screen  
Baby what do you mean to me  
Was it ever real

Because i feel like i'm in love with a technology  
I'm looking at the computer screen  
Baby what do you mean to me  
Was it ever real

When i first saw you  
I added you as my friend  
don't be a stranger  
So many guys that pretend  
See i can't help the way i feel  
I keep telling myself  
this guy is real

I feel like i'm in love with a technology  
I'm looking at the computer screen  
Baby what do you mean to me  
Was it ever real

Because i feel like i'm in love with a technology  
I'm looking at the computer screen  
Baby what do you mean to me  
Was it ever real

Tell me, was it ever real?
