The revolution of me...
I'm talking to woman
I'm talking to woman
I'm talking to woman
Yeah, yeah, yeah...

Everybody wants
Everybody seeks sometimes someone
The one who really trust to
My life has begun
And then I met you
When our eyes met right in this club
I just can't forget this moment

Hook:

Baby let me see what you're afraid to see
Your love is around me when you count on me
I'm like mister wrong
And you are like mrs. right
Baby, what we are all about?
What, what we are about?

Chorus:

Everybody said to me (don't go)
Everybody's asking me (do more)
One thing that is possessed by me
Kinda' progress by me
The revolution of me
The revolution of me
My revolution of me

Nowhere to run, nowhere to hide
There is a time of my life
I have to make a decision
Baby, you are still mine
And I'm feeling yours
You just don't have to ignore
My life and my position
