Did you ever stop and realize
That we're almost meant to be
When I look into your eyes I see
Another side of me
When I see your face I wonder
How it ever got to be
To the point where when I think about you,
I fall down on my knees

Pre-Chorus

Oh God, please tell me is this right?
Theres just no way we can get through this
But we still have tonight

Chorus

'Cause when it's us,
No one else around, just us
Every hour passes like the second hand ticks by
Yeah when it's us,
Not a single sound, just us
It's like the heavens come to earth and we can fly
Cause when it's you and me
We'll be what we wanna be.
Cause when it's us
We'll never have to say goodbye.

We're two pieces of a puzzle
that were never meant to fit

Like Juliet and Romeo
Theres only one way out of this
We're stuck in similarity
When opposites attract
Someday you're gonna walk out that door
And I know you won't come back

Well, I just met you and
I could bet you'd
Rather be anywhere but here,
But take my hand and
Understand that when it's
You and me, our troubles disappear

'Cause when it's us,
No one else around, just us
Every hour passes like the second hand ticks by
Yeah when it's us,
Not a single sound, just us
It's like the heavens come to earth and we can fly
'Cause when it's you and me
We'll be what we wanna be
'Cause when it's us
We'll never have to say goodbye
