A Kiss in the Night
Can't find a second chance for love
Cuz a broken heart is never strong enough
To find a new horizon where the dreams come true
But even though my heart is longing for you
CHORUS:
A kiss in the night
Lost in the dark
When lovers hide, angels are crying
Heaven's closed. No tears allowed
When lovers try to say good-bye
Good-bye
A kiss in the night
I feel you're still a part of me
I will always love you in my fantasy
The streets are dark and lonely
We walk hand in hand
I understand our love has come to an end
CHORUS
A Kiss in the Night
You're mine
CHORUS
A kiss in the night
A kiss in the night
You're mine
A kiss in the night
