### "Anywhere"

You just push the clouds away. Made my life a sunny day.  
All the time we passed together.  
Floating circles through the sky. We'll make anything we try.  
It's a kind of now or never. Now or never.

Any moment we live. Any smile that you give.  
Love take me there. Anywhere.  
Tears are in my eyes. It ain't no surprise.  
Love take me there. Anywhere.  
Love just takes me there. Anywhere.  
Love just takes me there. Anywhere.

Take you to where you've never been. Close your eyes and join the scene.  
All the times we passed together.  
Time to rule this wonderland. Trust in me just take my hand.  
It's a kind of now or never. Now or never.

Any moment we live. Any smile that you give.  
Love take me there. Anywhere.  
Tears are in my eyes. It ain't no surprise.  
Love take me there. Anywhere.  
Love just takes me there. Anywhere.  
Love just takes me there. Anywhere.
