Oh baby don't cry. When daydreams are dying.  
Just try to forget. That my heart was lyin'.  
I'm gone with the wind. Don't try to find me.  
The tears and the sun are likely to blind me.

Baby don't miss me. Let me just miss you.  
When I'm not with you. Life is a dead-end street.  
Oh baby don't miss me. Let me just miss you.  
My dreams will kiss you. Baby you're all I need.

Oh baby don't cry. Cause I'm gone forever.  
I did you so wrong. When we were together.  
But maybe someday. I'll send you a letter.  
So you'll understand. A little'll be better.

Baby don't miss me. Let me just miss you.  
When I'm not with you. Life is a dead-end street.  
Oh baby don't miss me. Let me just miss you.  
My dreams will kiss you. Baby you're all I need.
