A lonely avenue - it's raining in my heart  
No name no number girl - how can I try a start without  
you girl  
I'm lonely as a cloud - oh when your love falls down  
You'll make the sun keep shining - oh when you're just  
around, oh I know  
And whatever will be, I promise you love, forever my  
love

Don't let me go, little darling  
Oh no no no no no, little darling, I miss you  
Don't let him know, little darling  
Oh no no no no no, little darling  
That I'm so in love with you  
Oh babe I'll never let you go  
We're flying high, we're flying low  
Oh babe there's one thing you should know  
Oh I'll never let you go, oh

And when the sun goes down, my world is in your  
hands  
Our silver clouds we'll fly, just to the rainbow's end, you  
and I  
Only my shadow knows, love is on my side  
I fly around the moon, only to hold you tight, only you  
And whatever will be, I promise you love, forever my  
love
