Please don't tell the secrets that we share.
I want you to keep it in your soul.
Keep it well and if you really care. (Keep it in your soul).
I want you to keep it in your soul.

My best friend called me up. And told me he'd stop by.
And with the girl he loves. So pretty I could die.
I felt the danger in the moment I saw you.
He's my best friend. This girl and I can never be true.

Please don't tell the secrets that we share.
I want you to keep it in your soul.
Keep it well and if you really care. (Keep it in your soul).

I want you to keep it in your soul.

I know you keep the promise. I read in your eyes.
Making excuses up and giving false advice.
But I would lose my friend. I felt so bad inside.
What I feel for you. I think I can not hide.

Please don't tell the secrets that we share.
I want you to keep it in your soul.
Keep it well and if you really care. (Keep it in your soul).
I want you to keep it in your soul.
