"Rhythm Of The Night"

I watched the sun beating down on the boulevard
Neon light shining so bright on hot melted tar
This is the certain place where I love to stay
Street life is calling to me, till the break up day
I am waiting for you with your sexy eyes
While the people are passing by
Feel the rhythm of the night
Feel the heat
Feel the rhythm of the night
Feel the heat
Celebration, celebration time
Keep on dancing, it's celebration time
Beautiful people are ready to meet in the heat
Body to body vibrations are over the street
I am waiting for you with your sexy eyes
While the people are passing by
Feel the rhythm of the night
Feel the heat
Feel the rhythm of the night
Feel the heat
Celebration, celebration time
Keep on dancing, it's celebration time
I am waiting for you with your sexy eyes
While the people are passing by
Feel the rhythm of the night
Feel the heat
Feel the rhythm of the night
Feel the heat
Celebration, celebration time
Keep on dancing, it's celebration time
Feel the rhythm of the night
Feel the heat
Feel the rhythm of the night
Feel the heat...
