### "Till The End Of Time"

I just would like to talk to you.  
Maybe a minute, girl, or two.  
You had your time to think it over.  
I tried to call you on the phone.  
Somebody told me you're not at home.  
And I wonder. Wonder.  
And I wonder.

Till the end of time my love.  
I can't say good bye till the day I die.  
I'm not giving in my love.  
This heart of mine it won't be changing.  
Till the end of time.  
Till the end of time

It's not that I will cry or shout.  
Girl, every time you mess around.  
I simply want to talk it over.  
And maybe I can make you see.  
What in the world you mean to me.  
Remember. Remember. Remember.

(Gonna love you till the day I die - Till I die.)
