Here we stand, at the end
You and I, out on the battlefield
Shot your words, like a gun
And it hurts like Hell
But I can deal
Yeah

'Cause I don't need you to want me
I've got my pride

I'll survive you
Even with all these wounds
I'm alright, I'll undo
All of the damage you've done to my life
That's right
You're not gonna see me cry
This time I'll survive you

I'll get up, 8AM
Every day just like any other day
Won't erase who I am
Did your best to try
But I'm the same
Yeah

So if you want me to need you
You'll be surprised

I'll survive you
Even with all these wounds
I'm alright, I'll undo
All of the damage you've done to my life
That's right
You're not gonna see me cry
This time I'll survive you

'Cause over and over again
You said you were locked in the cage
But I was the one with the chains
Not raising my flag once again

Yeah

I'll survive you
Even with all these wounds
I'm alright, I'll undo
All of the damage you've done to my life
That's right
You're not gonna see me cry
This time I'll survive you

Yeah, I'll survive you
