He sits alone in a table in a small cafe
Drowning his tears in a bottomless cup of coffee
And he's tumblin into his thoughts
His memories are all tied in knots
Who is going to save him
No one wants to know him

She stands alone in a place where no one knows her
name
She catches them starin and they turn round and finish
the frame
And shes nursing her head in her pride
She died long ago deep down inside
Who is going to save her
No one wants to know her

(CHORUS)

I can't believe that you pull on a sleeve when you
cry(when you cry)
You stick in the knife then give the kiss of life
Live the lie(live the lie)
We all have a saviour
Do yourself a favour
Stop living the lie

He sits alone and looks up to the eyes of an angel
She catches him starin and smiles the smile of an
angel
And she asks him if this chair is free
He says yes will you sit here with me
No one would have saved them
We should all learn from them

(CHORUS)

I can't believe that you pull on a sleeve when you
cry(when you cry)
You stick in the knife then give the kiss of life
Live the lie(live the lie)
We all have a saviour
Do yourself a favour
Stop living the lie

Lie
The lie
Stop living the lie
