"OUT OF AFRICA"

Visit "[OUT OF AFRICA](#)" on MotoLyrics.com

Out of Africa they took us
And they sold us as slaves for money
Who they could not sell
Dem kill dem, kill dem, kill dem

Now these things are changing
Black people killing black people
Some a dem a use guns
Some a dem a use knives
But most of all the rest a dem a use dem mouth
Dem mouth

Black people we will never learn
We've got to stop this fussing and fighting
Stop this cheating and backbiting
Let us all try to unite
In these times my brethren
Let us unite
