Here comes a soul saver
On your record player
Floatin' about in the dust
You sing the joys baby
I'll be down when you're free from the rust

Take your pick who's your savior
Come in five different flavors

Tell me I'm sweeter than your broken leader
I'll take the smooth with the rough
I see you lying there
Put him down no reply in the sand, in the mud.

Don't kick it I wanna keep it
Don't feel it I wanna drive

In the sunshine of my life
In the sunshine of your life
Can you feel it when it's right?

Can you feel it in your soul
Can you feel what's goin' on?
Yeah! Right

Don't kick it I wanna freeze it
Don't feel it I wanna drive
It's the sunshine of my life
It's the sunshine of my life
Can you feel it when it's right?

Look it comes
And when it flows like your country song
What's going on Going on Going on
