God is everywhere  
God is here in me  
And I see you God  
In everybody  
Love is everywhere  
Even in that lonely star  
It's someones' home  
Nevertheless so far

God is everywhere  
God is here in me  
God is outthere  
He's feeling free  
Love is everywhere  
Even on the airless moon  
And in deserts and empty balloons

Let me take control of whole the world  
(You know me)  
Let me make you stroll out thru the doors  
(And get free)  
Let me make you feel the best and better  
I know it matters

God is everywhere  
God is in my heart  
God is in the end  
He was at the start  
Love is everywhere  
Even if you feel alone  
Or are forgotten or just turned down

2x  
Let me take control of whole the world  
(You know me)  
Let me make you stroll out thru the doors  
(And get free)  
Let me make you feel the best and better  
I know it matters

God is everywhere

God is here in me  
And I see you God  
In everybody  
Love is everywhere  
Even in that lonely star  
It's someones' home  
Nevertheless so far  
Everybody say

2x  
Let me take control of whole the world  
(You know me)  
Let me make you stroll out thru the doors  
(And get free)  
Let me make you feel the best and the better  
I know it matters
