Monday comes and Wednesday flies,  
cause on Saturday, yeah on Saturday I fly.  
See you later, see you soon.  
You said you'd wait and I do believe you.  
C'mon, c'mon,

You - you were always there waiting waiting.  
You - you were always there, and yes I do believe you.

If you go or if you stay makes no difference  
cause you're still my favourite.  
Don't forget me, not too soon.  
Happy days, oh the way you move.  
C'mon, c'mon.

You - you were always there waiting waiting.  
You - you were always there, and yes I do believe you.

See you later see you soon  
You said you'd wait and I do believe you.  
See you later see you soon  
You said you'd wait and I do believe you.  
See you later see you soon  
You said you'd wait and I do believe you.  
See you later see you soon  
You said you'd wait and I do believe you.

You - you were always there waiting waiting.  
You - you were always there, and yes I do believe you.

Oh the word the word is love  
You let me go and I gave you up
