We're in one mind, we're in this together
And we're facing a fight
We're not trying to be clever, no
We're not trying to be cool
Sometimes it feels like it's just me and you

We have one life to find higher ground
It can take us up, it won't bring us down
It's forever, we're here forever

And we'll change it all
We'll rise then we'll fall
We'll love then get lost
In the light after dark

We're not alone now
You are the reason I've been walking so tall
We're in the spotlight, we're on the floor
Wrapped in arms that make us feel secure

We have one chance to go where we go
You have shown me and now I have seen it I know
It's forever, oh, we're here forever

We'll change it all
We'll rise then we'll fall
We'll love then get lost
In the light after dark

You and me, we're the light after dark
You and me, we're the light after dark

We'll change it all
We'll rise then we'll fall
We'll love then get lost
In the light after dark

In the light after dark
