Shawty you so special im falling for you, I should be more careful your looks kill you dont need no weapon your enough I dont need no extra I aint know a angel could be so sexy heres your ring we dont need no wedding.

If loving you's a crime then I guess im about to be a fellow, no fair trial no justice for me, your an addictive substance for me, i'm so high off you I could snip a whole tuce and it wouldnt do nothing for me. A girl like you i'm lucky to meet lucky to see i'm anxious to find out whats finna be i'm try'na plant a seed in you if you could just put your trust in me oh wait I turn off my phone I ain't no bank but were a loan it feels so right but were so wrong but, I cant leave though i'm so gone i'm so fly you got me gone I dont know what it is you got me on but I know i'm so hooked on you its substance abuse you got me stoned no rehab no intervention no cause my obsession with you is intentional to heaven we must be meant to go now that sound like a place you been before but, im all in it though no back and forth no tennis balls I know I gotta O.J. Simpson flow but your only in danger if your Nicole.
