

Don Trip "Still Got Love 4 Ya"

Visit "[Still Got Love 4 Ya](#)" on MotoLyrics.com

Let's chill, I don't wanna settle down
It's not what I want
It can be bad before, it can be bad afterwards
But when it's good, it's good

I still call your phone late at night
You answer cause you think I'm mister right
Your sex is the only thing I say
Damn the truth hurts, but I got love 4 you
I'm not in love with you no more
I'm not in love with you no more
I'm not in love with you
I'm not in love with you no more

Nah, no candles, no rose petals
I'm just tryna get licked like a closed letter
Say I'm tryna get neck like a gold...
Ain't no love in my heart, you should have known better
But I love what's in your pants like a gold treasure
We keep going back and forth it's a broken record
I know I still melt your heart in the coldest weather
But the fact remains, we don't belong together
Let's chill, no darling I don't wanna settle
Even when I'm feeling like your love is the best ever
Yes I got love for you, I'm not in love with you
This ain't no love letter
That's why you deserve more, I know you deserve
better
But I'm not fit for you, I'm flyer than bird feathers
You love me to death though, I made need pound...
Cause you know I'm a dawg yo, you gonn need a dog
catcher

I still call your phone late at night
You answer cause you think I'm mister right
Your sex is the only thing I say
Damn the truth hurts, but I got love 4 you
I'm not in love with you no more
I'm not in love with you no more
I'm not in love with you
I'm not in love with you no more

I swear I love it when it's wet
And love it when it's wrong
I don't wanna be correct,
I don't want your heart, I just want you out your dress
Let the kitten out the bag, and I'll beat it to death
After that I'm taking off faster than a jet
Pack my parachute in case I have to press eject
I just wanna cores, no I don't wanna connect
And send you back home without a higgys on your neck
It starts with a call then a picture gets text
And before you know it, we be at it like we just met
As if we ain't split, as if I wasn't your ex
A part of you was wishing it was more than just sex
Sorry baby our relationship wrecked
And I really wish you would just let the ship rest
Yes, to the left, to the left
Every feeling that we shared,
To the box, to the left

I still call your phone late at night
You answer cause you think I'm mister right
Your sex is the only thing I say
Damn the truth hurts, but I got love 4 you
I'm not in love with you no more
I'm not in love with you no more
I'm not in love with you
I'm not in love with you no more

So let's chill, I don't wanna settle down
It's not what I wanna do
Take this time,
Let's chill I don't wanna settle down
It's not what I wanna do
I wanna take this time to keep this real

I still call your phone late at night
You answer cause you think I'm mister right
Your sex is the only thing I say
Damn the truth hurts, but I got love 4 you
I'm not in love with you no more
I'm not in love with you no more
I'm not in love with you
I'm not in love with you no more
