Away beyond the blue
Away beyond the blue
One star belongs to you
One star belongs to you

And every breath I take
And every breath I take
I'm closer to that place
I'm closer to that place

Yeah baby, I'm gonna meet you there
On the outskirts of the sky
Yeah baby, I'm gonna meet you there
And we will fly

Away beyond the blue
Away beyond the blue
One star belongs to you

This life is but a dream
This life is but a dream
Go gently down the stream
Go gently down the stream
