Heart to heart we'll hold together hand in hand we'll  
find a way  
Oh the storms of life may blind us but with the loving  
vows that bind us  
Heart to heart hand in hand we'll stay  
Side by side forever and always day by day till our lives  
are done  
This sweet love is ours to treasure far beyond all time  
and measure  
Side by side day by day as one  
The years cannot take what's between you and me  
We'll stand her together for the whole world to see  
Heart to heart there'll be no other hand in hand for our  
love is true  
Oh the words that we have spoken will be a promise  
never broken  
Heart to heart hand in hand with you
