

Exiting The Fall "Over My Dead Body"

Breathe it's time for you to breathe
Your going to die if you don't listen well
There's something bigger than both of us
It's going to find you whether you like it or not

It's time to fight until the death against our sin

Bring to life these dry and thirsty souls
Change our hearts, change our goals
Teach us the endless rhythms of grace
We are wearing a new mask which is Your perfect face

It's a battlefield, we're fighting to save our lives
We're fighting to claim the prize
We're fighting to save our lives
Over my dead body

The enemy has hope as he
watches us as we will be torn down and broken
like city walls that ring the call
of His return that hees the fall sound unspoken

From the clouds our Savior rides
Shielding our soul with the death of His life
With the death of His life
From the clouds our savior rides
Shielding our soul with the death of His life
With the of His life

He laid down His life so we could fully strive
