It's gone be alright in the end*
Alright friend

What's the point in letting you get you down
You know what's going on know
You know
Then you know where you stand
You're on solid ground
No fairy tales

[Chorus:]
And everything it's gonna be alright in the end
It's gona be alright friend
Everything it's gonna be alright in the end
It's gona be alright then

Sometimes things they change
What can you say?
Apart of that
Expect that we grow
So whatever you do you've met your life show

[Repeat Chorus:]
