Breathe by The Floacist

If You are feeling low
It is best to expose any thoughts of doubt
You gotta air out

Awake
Your greeting of the day
With the choices that you make
Decide what you will leave
Decide what you will take

Decision are the key
To release what you don't need
If you gonna let it be
Then
You have to let it be!
Be mindful not to keep
The residue of anything that had you feelin weak

Like, What was said
Versus what you think
Sometimes your own assumptions
Are the ways that make you sink

Feeling down
It can be an addiction
Getting up
Can be filled with hesitations
It takes determination
To fool proof the distractions
These attractions are the target on your soul

Asking you to stay
When you know you have to go
Know the things you know
Is your path just your own

Lessons will be Lessons
If you listen to that fear
Hear your truth
Keep it near

& then You just...

Breathe,
You gotta let it go
Let it go
So U can Grow!
You gotta let it go
Let it go
Just Breathe
(2x's)

Avoid all this confusion
Refuse the solution
If your destiny is not blessed
But It is your time

No matter who came before you
Don't let them wear you down
With the pain of their past
Shape your own mind

It's irrelevant
If relevance is measured by the elements
Without baring a reference
To your own kind

Earthling
You mind find that
We are living in an era
That can't be defined

By those
Who thought that this was the end
By those
Who thought that their enemy's would win
By those
Who let paranoia turn them inside out

Do you know what this life is all about?
Can you remember
Before anyone taught you
To feel as if life is never gonna treat you
Better than the lesser
But that was in the prequel
What about now?
You took kidding,
so let it out

Breathe,

You gotta let it go

Let it go
So U can Grow!
You gotta let it go
Let it go
Just Breathe,
(2x's)

You can do anything that you want to do
Anything that your heart truly chooses
It may be a lonely journey
But it's yours!
It's your purpose
You may have to leave something's behind
You may have to change your mind
You can't bring everybody with you
But they will be better off
For having known you

Breathe,

You gotta let it go
Let it go
So U can Grow!
You gotta let it go
Let it go
Just Breathe,

(continue to repeat to the end))

I loved this song so much, it has such a positive message about GROWTH in life, I wanted to share it with every1, so I listened to it over & over & typed up the lyrics since I couldn't find it ANYWHERE on the internet!
