Hey, there's something I wanna tell you
Yeah, come over here
I've been thinking of you since the sun came up
I've been thinking of you since I woke up
I've been thinking of you since I last fell asleep
I've been thinking of you everyday of this week

How you do that? You stay on my mind
Tell me how you do that? Oh, come one

Why don't you come over? Yeah, yeah, yeah
Why don't you come over? Yeah, yeah

I just wanna look at you
While we do the things that we like, yeah
Can I look at you babe, is that alright?
I wanna look at you while you open your mind
Can I? Can I? One more time
I love the things you do, show me baby

Why don't you come over? Yeah, yeah, yeah
Why don't you come over? Yeah, yeah
Why don't you come over? Yeah, yeah, yeah
Why don't you come over? Yeah, yeah

Call me on the telephone
Tell me when you're coming home
I miss you, are you coming soon?
Tell me that you're coming soon
I wanna see your face, [Incomprehensible] all night
Baby, I'm waiting for you, all night

Why don't you come over? Yeah, yeah, yeah
Why don't you come over? Yeah, yeah
Why don't you come over? Yeah, yeah, yeah
Why don't you come over? Yeah, yeah

Come over
Why don't you come over?
Come over
