I see you thinking if I'm thinking what you're thinking*
Im just moving where the mood inside takes me
Looks like faith means to lead us into nowhere
Touching every layer of matter from beginning to latter
It's the laws of attractions that set actions
Not the voices of the conscious programmed with so
much nonsense
Trying to fear us from what's natural
We were all born supernatural
And right now I just wanna get closer to you
Will you let me

[Chorus (2x):]

If you let me
I'd love to
Baby tell me would you let me
If you let me
I'd love to
Baby will you?
Let me

Sometimes I get carried away by the idea to stay
To be with you night and day
I love the way we misbehave
In that earthly way it means I get to feel you with all
senses
Burning incenses
These athletics how could I forget it?
I'm not a good girl nor the bad girl
I'm a woman
Hear me roar while you adore me
And employ me to explore for your mission
I'm on a mission to find you
Will you let me?

[Repeat Chorus:]

I suppose now it's the time
That we in-twine body soul and mind
Do you mind
I'll just love it
If you will let me find myself in you

Let me introduce you to a seduction
That will guide you into another groove
I see future in you
I read pages of you
And never get tired
You get me higher
Lets float away into another place another space
I hope you'll retrace all you've lost
[Repeat Chorus:]
