What you gonna do you gotta ride to it
What you gonna do when you vibe to it?
What you gonna do? What you gonna do? What you
gonna do? X 2

What you gonna do?

First feelings of fame have nothing to do with other
people
It's how you live about your life as if you're
living a sequel to the Bible
It's when you take everything to supernatural and
make it a part of your own reality
You're feeling me is feeling free
People while shrouded in the story of the past
Stories of your last way too long to cast shadows way
too strong
And still you feel the light real, I don't conduct
rituals
I mean that listening to the of your soul

Yeah, and if you know you let it show
Get acting let it grow, don't be afraid to let it go
If you're blessed let me see you glow

What you gonna do you gotta ride to it
What you gonna do when you vibe to it?
What you gonna do? What you gonna do? What you
gonna do? X 2

Part me and part amazing, this instinctual
understanding beyond what I learned
But what I learned help me learn some more so
I've known remorse of the courses will make some
feel that I'm strange but
I'm blessed like the next breath so I don't feel
the same way that some do
I could do but I graduated now, there's only so
to be down, what's done it's done
Tell you into the millennium I refuse to empower my
fears with my memories

So I remember me instead

Yeah, and if you know you let it show
Get acting â€¦ let it grow, donâ€™t be afraid to let it go
If youâ€™re blessed let me see you glow

What you gonna do you gotta ride to it
What you gonna do when you vibe to it?
What you gonna do? What you gonna do? What you
gonna do? X 2

I come from a timeâ€¦ became visible, the four time
was divisible
I â€¦ physically invisible, just agreeable

And if you know you let it show
Get out the way so you can grow
Donâ€™t be afraid to let it go
If youâ€™re blessed I wanna hear you flow

What you gonna do you gotta ride to it
What you gonna do when you vibe to it?
What you gonna do? What you gonna do? What you
gonna do? X 2

I wanna hear you, I wanna hear you flow
What you gonna do? X 2

What you gonna do you gotta ride to it
What you gonna do when you vibe to it?
What you gonna do? What you gonna do? What you
gonna do? X 2
