Burning like a freight train, (burning down my heart),  
Igniting deep within, (yah you do),  
I can't stop these feelings, (burning down my heart)  
Coming out of me, (yah you do),

[Chorus:]

You don't have to run away from me,  
With all this time you wasted,  
Here's all that time now take it,  
Cuz you don't have to run away from me

Burning like a freight train, (burning down my heart),  
Igniting deep within, (yah you do),  
I can't stop these feelings, (burning down my heart)  
Coming out of me, (yah you do),

[Chorus]

In the darkness I hear a chorus,  
Screaming out to guide our voices  
[x2]

[Chorus]
