Glimmering in the darkness as shadows walk past  
The rain falls next to me, and I am blinded  
Running from my emotions your words they cut deep  
It's late and past my time, it leaves you blinded

GO!

Filling in the incisions to cover my wounds  
These scars you'll never see (these scars you will never see)  
Standing high on the ceiling as they all pass by  
You'll never notice me, you'll never notice me

Erase my mind  
Go back this time  
When we were blinded, blinded  
So deep inside we just can't hide  
It leaves you blinded, blinded

As everything dies around you  
I'll encrypt every letter that you wrote me  
Burning pictures of your face  
To keep it deep inside my heart  
Just cause you're gone it doesn't mean that we forgot

Erase my mind  
Go back this time  
When we were blinded, blinded  
So deep inside we just can't hide  
It leaves you blinded, blinded

And we tried so hard to say  
All the feelings we've held back  
But the words got in the way

Now there's nothing better

The pottery breaks intuition  
My soul's at stake, its reflection  
I'm jumping now, split decision  
Break away, break away, break  
The feeling within, it's amazing

The wind on my skin, it's refreshing  
Completing the end, it's the best thing  
Break away, break away, break  
(You knew that we would never let you break)

Erase my mind  
Go back this time  
When we were blinded, blinded  
So deep inside we just can't hide  
It leaves you blinded, blinded
