[Words can't describe itâ€¦
And I don't have to talk to you, do I? I can justâ€¦ feel
And you'll feel it right here too
Words can't describe
And I don't have to talk to you do I?]

Don't think you know me
Not everyone is who they seem to be
They don't trust your instincts
Or the words you read or write but you say

Start sleeping with the light on
The things you see are beyond doubts
You don't need your eyes anymore
Open them to see me rip them out

[He still freak you out?
Nothing freaks me out
Try living with him]

Now symbols can describe
This fragile blood I feel
I'm the enemy in the end
A victim among your friends
You still want to see
Some worth inside of me
Don't fool yourself again
You are my victim, not my friend.

screams

No symptoms to describe
This nothing that I feel inside
No salt to leave me paralysed
You were never my friend
An emptiness only I can see
To me its gift of a disease
Want me to hurt you just say please
I was never your friend

No symbols can describe

This fragile blood I feel
I'm the enemy in the end
A victim among your friends
You still want to see
Some worth inside of me
Don't fool yourself again
You are my victim, not my friend.

screams

You were never my friend
I was never your friend.

Now symbols can describe
This fragile blood I feel
I'm the enemy in the end
A victim among your friends
You still want to see
Some worth inside of me
Don't fool yourself again
You are my victim, not my fucking friend
I was never your friends.

[Words can't describe it
And I don't have to talk to you, do i?
I can just
Feel]
