"One More"

Break two eggs
Mix them together add a bit of salt
Green pepper add some onion, ham
And mix together in a pan
Coffee in my favourite cup
It's the perfect way to wake up

Now you take two friends
Add a little bit of teenage lust
A little bit of lack of trust
A little bit of time
Jealousy and betrayal from the start
It's the perfect way
The perfect way to break your heart

One more day
One more year
One more sigh
One more tear
Take you half way there to here

Take two chords

Add a melody, now add one more
Add some irony so they all see
You're sensitive and smart
Well who could blame you, you got a little bored
They were so impressed
But you always wanted more

One more day
One more year
One more sigh
One more tear
Take you halfway there to here

Take my hand
You don't always need to understand
It's too late to hear the warning bell
And it's just as well, my dear
Sometimes they all need you halfway there to here
