Well it's sad but true and some day it'll happen to you
When your can do can't keep up with your want to

I ain't never been much of a lover and it never really
bothered me none
With the whole world full of adorable women I figured I
could catch me one

But lately I've got a problem and I don't know what to
do

You see my can do can't keep up with my want to
Well my want to wants me to do everything I used to do
But my can do can't keep up with your want to
[guitar]

I met a Dolly in a roadside tavern of the time and the
place was right

We had a table in the corner where the lights were low
And the band was picking out of sight

We were dancing to a fast little ditty but before I got
half through

I found my can do can't keep up with my want to
Well my want to wants me to...

Well it's sad but true...
