"Wine In The Cellar"

I got wine in the cellar and a party upstairs and here it
is Friday night
I'm gonna shine up my shoes and slick down my hair
and yet just to reap it tight

I got a lotta on my mind they gotta get off and I'm
gonna do it right
With the wine in the cellar and a party upstairs and
here it is Friday night
It's been a long week I'm glad it's gone week cause
everything I did was wrong
It's been a long week a doggone hard week
And I'm so glad the weekend's come along
Cause I got wine in the cellar...
[steel]
It's been a long week...
I'm gonna shine up my shoes and slick down my hair
and yet just to reap it tight
