I know that it's risky, a little unclear  
But you should be with me, you should be here  
And I'm not going to stall, or fall into your trap  
Because I know you better  
I know you better than, better than that  
I know you better, I know you  
Better than, better than that  
And how can something so simple  
Become so hard, and why do we keep  
Believing that we should be where we are  
And how can a problem so little  
Become so large, we started off unbreakable  
And then it all fell apart  
I promise it matters, promise it does  
That you should be happy, you should feel loved  
And I'm not going to play games  
Or blame it on your friends  
Because you know be better  
You know me better than, better than them  
And how can something so simple  
Become so hard, and why do we keep  
Believing that we should be where we are  
And how can a problem so little  
Become so large, we started off unbreakable  
So give it a chance, give it a chance again  
Give it a chance, give it a chance again  
Because this is not the end for us  
This is not the plan for us  
And how can something so simple  
Become so hard, and why do we keep  
Believing that we should be where we are  
And how can a problem so little  
Become so large, we started off unbreakable  
We started off unbreakable  
We started off unbreakable  
And then it all fell apart, apart, apart  
I know that it's risky, a little unclear  
But you should be with me, you should be here  
And I'm not going to stall, or fall into your trap  
Because I know you better  
I know you better than, better than that
