Take your time, I still crumble inside  
It's like our first flight to the island that night  
Do you remember when I used to smile like a new born  
child?  
It is in our hands to turn back the time  
Cause' we always, we always should try

Pre - mo - ni - tion  
Pre - mo - ni - tion

Chorus:

Thought that everyone  
Better place for my pride  
Premonition to be heard  
You stole everything  
My heart is on fire  
It is totally absurd  
Is anybody up there hear in my voices only one word  
Premonition to be heard  
Premonition to be heard

Here with me to listen to your body  
Push me down and listen to your mind  
Tell one thing, one thing that needs anoher  
Dry my eyes and take me from behind

Pre - mo - ni - tion

Bridge:

It goes out and out from under  
A little bit from both of us I wonder

Pre - mo - ni - tion
